

Millville Public Charter School

Online Summer Math

Incoming Grades K-8

Dear Parent/Guardian:

As the 2016-2017 school year draws to a close, it is my pleasure to present to you our 2017 Summer Math Online Resource. This online summer math resource has been provided for your child's continuous growth in mathematics. It encourages students to continue learning while still providing them with fun and enjoyment. This online summer math resource will provide your child with practice on various math skills and standards over the summer in preparation for the next school year.

As part of the Summer Math Online Resource students may choose any math website from the list provided by standard and/or skill. This Summer Math Online Resource is to help your child review standards and skills from this past year and previous years in preparation for the next grade level. Below are various math resources for your child.

- [IXL](#)

A child-friendly math practice environment with unlimited questions on over hundred math topics per grade. IXL tracks student progress and gives children virtual medals and awards. Covers grades PreK-precalculus.

www.ixl.com

- [Mathletics](#)

An online math practice system for grades K-12. In the "Full Curriculum" section students practice hundreds of math topics in 10-question increments. The program also includes "Live Mathletics" where students race with math problems against other students around the world in real-time, games, Rainforest Maths, printable resources, interactives, video tutorials, and a reporting system. www.mathletics.com

- [MathScore](#)

Online adaptive math practice environment with measurable student progress. From grade 1 to algebra.

www.mathscore.com

- [cK-12](#)

CK-12 is a large, free site for learning and practicing math and science. It contains text-based lessons, FlexBooks® (digital textbooks in PDF, ePub and mobi formats), videos, and quizzes for multitudes of math and science topics from K to grade 12.
www.ck12.org

- [CTC Math](#)

A comprehensive online tutorial program for grades K-12. Includes video tutorials, interactive questions, diagnostic tests, reporting, and more.

ctcmath.com

- [Future School](#)

An online learning system (curriculum) for K-12, for both math and English. Includes skill tests, video lessons, reporting, and tutoring services.

www.futureschool.com

Good luck and we look forward to seeing you in August!
